# 1974 MISSILE

Petersburg High School Petersburg, Virginia Volume XIV

There's o man at P.H.S. who is known by all. This isn't just any mon This particular man has had the job of running Petersburg High for the post three years. Every student who has been to this school or is going now would be proud to say "he's my principal". His voice is the first to be heard over the intercom in the morning and the last to be heard in the evening. He schedules each day for the student body and provides activities to make school interesting. He has a firm sense of discipline, but allows for friendship and time with the students. He is the proud principal of a school that is great accodemically and othletically. The one and only man who this could be is Mr. Jimmy F. Sublett.

\*\*\*\*\*\*\*\*\*\*

Mr. Sublett was born in Thoxton, Virginia, where he attended the schools there before moving to Bedford, Virginia. He graduoted from Bedford High School and entered the University of Richmond where he enrolled in ROTC. 1954 was a big year for him. First he groduated from the University with a BA degree in chemistry and biology. Upon graduotion he was commissioned as a second lieutenant in ROTC. He entered the army in September of that year and served for two years, the majority of which was spent in Korea. He was married in December and now has two sons, Stepen and Brent. After being discharged from the ormy Mr. Sublett taught for one year at E.C. Gloss High School. He started working for Goodyeor Tire & Rubber Company in June, 1957. In September of 1961 he again entered the teaching profession, but this time of Petersburg High School as a chemistry teacher. He then took a year's leave of absence to earn his moster's degree in Education from the University of Virginio. He returned to Petersburg High where he tought physics for four years. In 1969, Mr. Sublett became assistant principal of PHS for a year followed by a year at Peabody Jr. High where he held the some position. He returned to PHS as Principol in 1971

Outside of his school work, Mr. Sublett serves on the Deacon Boord at Immanuel Boptist Church in Colonial Heights. His prized possession, other than his family, is his boat, in which he goes fishing whenever possible.

We, the 1974 members of the Missile Stoff, feel that this yearbook should be dedicated to the one person who has strived so hord to please the student body, Mr. Jimmy F. Sublett.

# VOCATIONAL EDUCATION ...

Vocational education provides numerous experiences and permits the students to explore occupations before making a career choice. If the student is to be successful in school, and ultimately in his work, he must have a sense of commitment to both his education and his occupational aspirations. If he is to make sensible commitments, he must first learn about himself and his capabilities, the society he lives in, and the world of work.

The experiences gained from this program have aided in knitting a close unit, developing a sense of responsibility, dedication and a friendly spirit of cooperation and team work. Every year during Vocational Week students make projects which are exhibited at the Mall.

### Technology is an Important Part of Our Everyday Lives

The Industrial Arts staff of Petersburg High Schaol believes that Industrial Arts is a cultural experience dealing with a camprehensive and in depth study of one of the most dominant forces in our contemporory saciety — Technology. Many of the content items for industrial arts have persisted throughout the history of mankind as a matter of vital importance and primary cultural farces in the evalving societies.

Based upon these essential prerequisites Industriol Arts in this plan is perceived os o curriculum area that facuses on those phoses of coreer education which deal with industry — its arganization materials, accupations, processes and products. In each class a porticular industry is studied such os tronspartotion, wood, oluminum, steel, or plostic ta provide as a basis for construction of projects that are developed in the laboratory. In oddition, the students established line and staff persannel plans which are implemented to pravide a wider interpretation of the organizotian, procedures, prablems, and cantributions of industry. This role-ploying octivity enlorges the reolm of student porticipation in keeping with his interests, aspirotians and copobilities. It also develops concepts reloted to the argonization of industry, productivity, occupational opportunities, automotian lobor-monagement relations, financial structure and the changing role of the individual in industry. This program ottempts to prepare each individual to cope with the requirements of living in a technalagical ero.

## Mathematicians Are In The Making Here At PHS

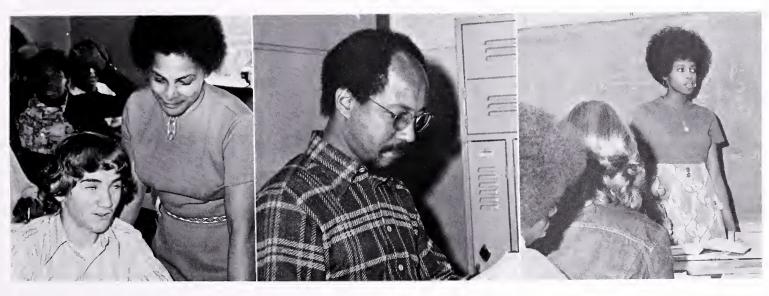

Burton Alexander

The mathematics deportment offers o voriety of courses in the nancollegiate program as well as the callege-baund area. In the business area, the student ends with an up-ta-date program in business mathematics with passible electives in the dato-processing pragram of the technical section.

A new callege bound program was begun two years ago at Peobody High School with a year of general mathematics and Algebra I being the credits. Plane Geometry is begun in the junior year rather than the saphamore year. The first students in this pragram are taking Plane Geomentry this year, and the entire program will be evaluated at the end of this school year.

More students ore electing the seniar mathematics caurses in Triganametry, Advanced Algebra, and Analytic Geametry.

One need that should be satisfied for all graduating seniars is a course in Consumer Mothemotics. This course is under study by the deportment as well as one in Probability and Statistics.

Juniors "Get It On"....

On the night of Morch 17, 1973, the of '74 crowded the high school gym for the ring donce. Everyone wos dressed divinely ond full of "hoppy spirits." As the closs of 74 donced to the music of The Poison Bond, the condidotes for ring queen waited excitedly to know who the queen would be.

Top left — Soft music brings the couples closer together.

Top right — Felicio Heoth and her date Elston Barnes, a Duke undergroduote "get off.".

Bottom left — Kothyrn Modison ond her dote Bill Phipps, o Hampton Sydney undergroduote, pose to hove their picture token.

Bottom right — The newly crowned Ring Queen, Venito Crocker and her dote William Gee, pose before the steps leading to the "Corner of their sky."

Scenes of Sophomore life ot PHS

. BID FAREWELL

TO P.H.S.

Although we onticipote entering the new high school in '75 os Juniors, we regret that we must leave PHS. It has played a great part in the process of our development and in the development of countless others who have possed this way before us. The things we've learned here contribute greatly to our social and mental development as young adults. As we become Juniors we say goodby to the old, hello to the new.

We Will Drive You Happy!

This is it . . . the, 1974 Missile. This has been on enjoyable year for me because most of the staff was new, but they were olso dedicated and hord working. Adding to this was the fact that the staff got along well and helped each other.

My greatest thanks to Mrs. Hugate and Mrs. Neibuhr for their understanding, advice, and general support. I also want to thank Mr. Sublett for his time and support.

Many thanks to Mrs. Marie Moniego and her staff, Without them we wouldn't hove had such a great theme section and division pages.

To the entire staff, my thanks for your undying efforts and invaluable time spent in the Missile Room. Special thanks to my two co-editors Annie Garris and Bessie Prude for their choices and decisions that made a successful Yeorbook.

I would also like to thank those who worked with the staff but remain unmentioned. I wish to thank Mr, John Perry and Hunter Publishing Company for their invaluable advice and potience. Also, special thanks to the many businesses which support the Missile through ads.

I wish the very best of luck to the 1975 staff. I sincerely hope they will be more organized and produce o great book. With cooperation, hord work, and patience it will not be o hard task. Good Luck!

Debra
